Homeopathy is a 200 year old holistic system to help *everybody* heal.

Use alongside existing medication, or alone for most conditions. Be well again.

Call to discuss this gentle, safe therapy for everyone, drug free, detoxifying, non-addictive.

Hopi Ear Candles are a clearance therapy for many problems related to the ear and head area, including snoring, pressure from diving and flying, sinus problems and ear wax.

The lymph system and metabolism can be favourably influenced by this intensive but pleasant and completely painless method of local heat application.

Treatments can be carried out in clinic or elsewhere.
